

Quarter, Half & Full Rounds

Quarter Rounds come in several sizes and serve a variety of functions. They are most often used with baseboards.

A cross section of a Half Round looks like a half circle and is used primarily as decorative trim. It works well as a trim piece for wall paper or to add a decorative pattern to flat panels. This profile can also be used to put a rounded edge on various shelving.

Full Rounds are used for numerous purposes and projects. Some of the more common uses are closet poles, curtain rods and towel rods.
