DIMENSIONAL LUMBER

2X4 #2 Western Spruce

SPF

Mills aggressively moved prices higher. Random 2x4 #2 offerings remain on the light side. 2x6 #2 remains extremely tight. 2x4 and 2x6 stud trims are commanding premium pricing and continue to pressure availability. 2x8 and 2x10 are moving higher. 2x12 pricing continues to falter against lower priced fir. Lumber futures for March contracts remains at a healthy premium to cash

DOUGLAS FIR (DF)

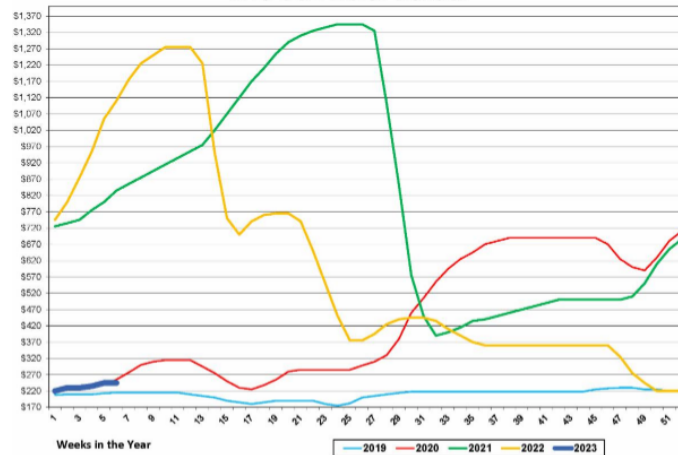

Green fir mills were also busy, and pricing on narrows continues to climb. Green longs order files are still at least three weeks out. We expect prices to climb across the board over the next few weeks.

TREATED LUMBER (SYP)

The market seems to be on auto pilot, slowly increasing.

PLYWOOD

7/16 OSB North Central

Pricing in this table is from mill to wholesale does not reflect local market pricing.

OREINTED STRAND BOARD (OSB)

Activity in the OSB market picked up late last week. Wet and cold conditions across most of the country slowed demand as we move into February,

SOUTHEN YELLOW PINE (SYP) PLYWOOD

The market continues its upward momentum.

DOUGLAS FIR (DF) PLYWOOD

Gradual price appreciation in the fir plywood market.
