

MARKET UPDATE - WEEK OF 2/14/2022

News & Events
DECK EXPO Feb 25, 2022
 Location - Ten Ninety Brewing Co
 1025 Waukegan Rd Glenview, IL 60025
 12PM - 3PM

DIMENSIONAL LUMBER

2X4 #2 Western Spruce

Pricing in this table is from mill to wholesale does not reflect local market pricing.

SPF

The market turned and pushed higher at the end of last week. Delivery from mills is still an issue, railcars and trailers are hard to come by and are creating delays in product shipping.

DOUGLAS FIR (DF)

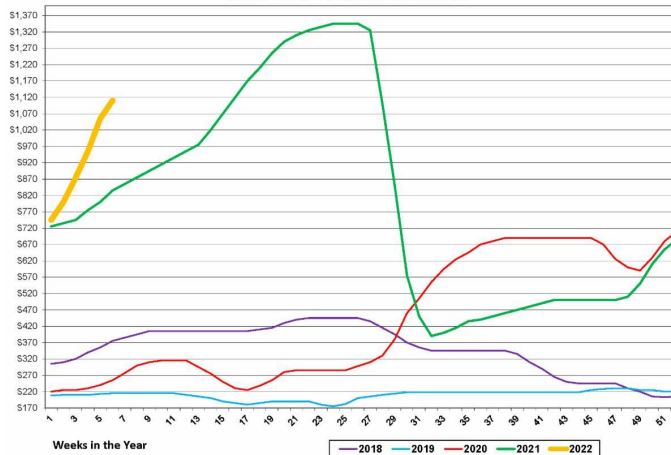

The mill inventory is nowhere near where it should be, which is causing pressure on the market. Supply is still limited and wides are difficult to find. Mills are still having availability issues on 22', 26', or 28' lengths.

TREATED LUMBER (SYP)

The market is poised for a complete turn as items have stopped sliding down and have started to push higher and will continue to in the coming weeks.

PLYWOOD

7/16 OSB North Central

Pricing in this table is from mill to wholesale does not reflect local market pricing.

ORIENTED STRAND BOARD (OSB)

OSB continues remains extremely tight across all zones. Prices have pushed triple digit gains for the 3rd straight week. Logistics are still a major issue. There is no end to price increases in sight and lead times are still unreliable.

SOUTHEN YELLOW PINE (SYP) PLYWOOD

The market continues to be strong. With the OSB market as questionable as it is, the SYP market is filling in the gap.

DOUGLAS FIR (DF) PLYWOOD

The market is showing an uptick. As with all other material transportation continues to be an issue.

ENGINEERED WOOD PRODUCTS (EWP)

Two of the three major suppliers have announced price increases.
