

MARKET UPDATE - WEEK OF 4-3-2023

DIMENSIONAL LUMBER

2X4 #2 Western Spruce

Pricing in this table is from mill to wholesale does not reflect local market pricing.

SPF

Mills remain firm on almost all items, with the exception of studs and precuts, which remain very strong and in high demand.

DOUGLAS FIR (DF)

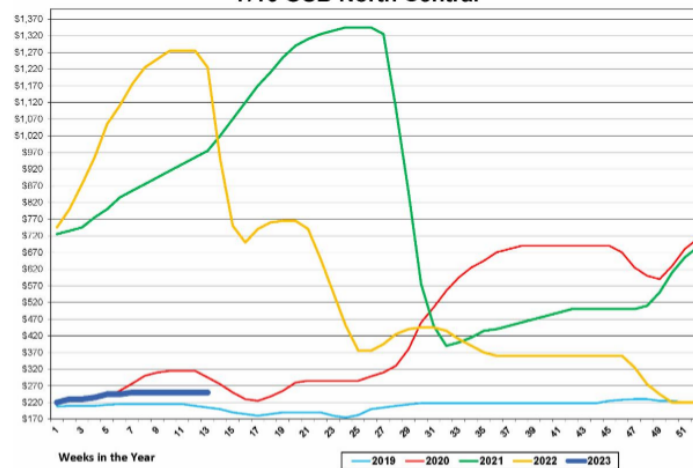

Some dry mills are experiencing rail car shortages and can't provide accurate ETAs as to when material will ship. As business continues to improve with the weather, we are going to see long delays in material getting to Chicago and beyond.

TREATED LUMBER (SYP)

Treated saw another steady but modest uptick in pricing this week. Larger log shortages should keep prices on 2x12s tight heading into the warmer season.

PLYWOOD

7/16 OSB North Central

Pricing in this table is from mill to wholesale does not reflect local market pricing.

OREINTED STRAND BOARD (OSB)

Activity in the OSB market has stayed flat.

SOUTHEN YELLOW PINE (SYP) PLYWOOD

Pine plywood is holding its own. Pine enters its fifth straight week of flat pricing.

DOUGLAS FIR (DF) PLYWOOD

Activity remains steady in the fir plywood market.
