

MARKET UPDATE - WEEK OF 3-28-2022

DIMENSIONAL LUMBER

2X4 #2 Western Spruce

Pricing in this table is from mill to wholesale does not reflect local market pricing.

SPF

The market has continued to cool down, however 2X4's continue to be hard to source. Rail car availability continues to cause supply disruptions. Fuel prices climbing are adding to increased costs.

DOUGLAS FIR (DF)

Market has slowed. 2X10 production is scattered but 24ft length availability is consistent.

TREATED LUMBER (SYP)

Pricing continues to level out. Material availability is good.

PLYWOOD

7/16 OSB North Central

Pricing in this table is from mill to wholesale does not reflect local market pricing.

ORIENTED STRAND BOARD (OSB)

Mill are starting to increase supply, but the market has not moved. Freight cost continue to increase daily and play a factor into over all cost of material.

SOUTHERN YELLOW PINE (SYP) PLYWOOD

The market dropped at the end of last week. The SYP market continues to be filling OSB gaps until OSB supply gets back to normal.

DOUGLAS FIR (DF) PLYWOOD

The market has continued to level out. Trucking and fuel continues to be an issue.

ENGINEERED WOOD PRODUCTS (EWP)

No Change - Engineered remains harder to find and material is on allocation from all suppliers. Another price increase is expected in April.
